THE  
**FUTURE**  
OF BUFFET

# GUIDELINES FOR A SAFE BUFFET, BANQUET, OR CATERED EVENT

The foodservice & hospitality industries have changed drastically, in a very short period of time. With many state and local governments reopening their economies and allowing for gatherings of 10-50 people (some cases more), it is more important than ever, for the traditional buffet, banquet, and catered event to finding creative ways to offer their services.

Because of this, Oneida Hospitality Group is here to provide solutions for the *safety and service* that your guests expect.

**FACIAL COVERINGS:** For the safety of the guests and staff, have guests wearing facial coverings, unless eating & drinking, or if there is a medical reason or there are children under the age of 3. Staff should wear facial coverings at all times, especially if social distancing cannot be followed.

**SOCIAL DISTANCING:** Many states allow larger gatherings, as long as social distancing is followed. Layout the space to allow for 6 ft or more between staff and guests. Provide physical guides, such as tape on floors, stanchions, and signage, to ensure that individuals remain at least 6 feet apart.

**SERVER-ASSISTED:** Guests will not be able to server themselves. Serve individually plated meals or grab-and-go action stations, dished out by staff. Top off with plate covers, for quick and safe service.

**SAFETY & SANITIZATION:** Have staff washing hands, wearing face coverings and gloves at all times during service. Limit any sharing of tools, equipment, or supplies by staff members. Ensure adequate supplies to minimize sharing of high-touch materials to the extent possible; otherwise, limit use of supplies and equipment to one group of staff members or attendees at a time, and clean and disinfect them between use.

# SOCIAL DISTANCING AND SERVICE

## SOLUTIONS:

- Provide physical guides, such as tape on floors, stanchions, and signage, to ensure that individuals remain at least 6 feet apart and to discourage gathering around service areas.
- Provide staff with tools that ensure quick and safe service.

## Crowd Control

## GUESTS WILL NOT BE ABLE TO SERVE THEMSELVES

Alto™ Chafers blend contemporary and elegant styling with a clamshell lid. For **optimal food-safety** a clear glass window allows food to be seen without constant opening and closing.

Staccato features a modern, hammered texture on a classic European design. These chafers enhance the presentation of any food display.

### SOLUTIONS:

- Eliminate double-sided buffets by having all buffets chafers & platters turned toward the serving staff.
- With all buffet items being served by staff, change out and sanitize serving utensils every 20 minutes.

# FOOD SAFETY & PERSONALIZED SERVICE

## Dinnerware

Though guests may not be able to serve themselves, they still expect to have an elevated experience.

### SOLUTIONS:

- Dishes handled and served by staff
- Plate covers over all served dishes
- More action stations with individual small plates

# SERVICE & SANITIZATION

Many event locations will not have on site sanitization.

## SOLUTIONS:

- Utensils will be pre-wrapped
- Considering guests will be opting for fresh sets more often, increase par levels to have 3X more on hand

## Flatware
